Task: 2

Reviewed Prototype : C856 Task 2

Prototype of : Devin Woods

Feedback : I feel like a goober. Site feels nice. The links work well. navigation is easy. The links work properly. maybe, if anything, see how it would look without border lines being visible, but it works fine. simple and intuitive!

Prototype Feedback

Task: 3

Reviewed Prototype : C856 - Taniti Prototype - Knudsen

Prototype of : William Knudsen

Feedback : everything works nicely. idk if we have to have this stuff but actual images would be nice to have on there. probably a bit more color as well. or even white. gray seems like it should be more for an official sort of site instead of a vacation island getaway place.

Prototype Feedback

Task: 4

Reviewed Prototype : Taniti Website Prototype

Prototype of : Devon McCauley

Feedback : I thought of this after i finished the video, but it would be nice to include more navigation links to section out the website more. also a little color wouldn't hurt. OR just go completely white to give it a clean feel. definitely include a splash image for the homepage. It looks like there was supposed to be one. So we're headed in the right direction! ORRRRR if you didn't want to make more navigation links at the top then include clickable items to add another level of pages to the design.

Project Review

Review: 1

Feedback : All 5 of the usability tasks were completed easily.

Date of Review : 2019-12-12 19:29:49

[Prototype Feedback]

Review: 2

Feedback : *Make navigation menu more user friendly * Add a "Contact Us" option in the navigation menu *Format paragraph in homepage to remove excess white space

[Prototype Feedback]

Review: 3

Feedback : Overall the site looks good. I would rework the nav bar with percentages in CSS so the bar scales with page size. I'd position the text and pictures in a more centered form. This would clean up the page a lot. All the nav bar links are working correctly as well as the logo link to the home page. The nav bar has a fixed position when scrolled and is working as the designer requested.
